Mobile No.: -91 7659831448

Summary

I am a computer science graduate with a Bachelor of Technology, specializing in front-end development, and proficient in AWS services. Successfully completed intensive AWS Cloud Practitioner training from Edu Bridge. Strong in design and integration with intuitive problem-solving skills. I gained a lot of knowledge by solving different problems. I am looking to start my career as a software engineer with a reputed firm driven by technology. Passionate about creating user-friendly experiences and open to exciting tech opportunities.

Projects & Experiences

AWS Services (Edu Bridge)

Roles & Responsibilities:

Completed AWS Cloud Practitioner training from Edu Bridge, where I spent two months gaining proficiency in AWS Services such as Elastic Compute Cloud (Amazon EC2), Simple Storage Service (Amazon S3), Virtual Private Cloud (Amazon VPC), AWS Lambda, DynamoDB, Amazon RDS, Amazon CloudFront, AWS Elastic Beanstalk, Amazon EC2 Auto-scaling, AWS Identity and Access Management (IAM), Amazon Elastic Block Store (EBS) and more, and learned how to apply these concepts to real-life projects.

Frontend Developer

App Description:

FeedYourBuds is a website where customers can order freshly baked goods and have them delivered to their doorstep. The bakery typically offers a range of products such as cakes, pastries, bread, and cookies. Customers can browse the selection, place their order, and make payment online.

Roles & Responsibilities:

Angular and Bootstrap were used to create and build responsive web pages for ordering and payment processing. Conducted testing and debugging to guarantee browser and device compatibility.

Frontend Developer

App Description:

Developed a full-fledged **Bakery Shop website** with HTML, CSS.

Roles & Responsibilities:

I concentrated primarily on the Admin UI Part. Worked with various designs in HTML and CSS to provide consistent and visually appealing designs throughout the website.

Frontend Developer

> **App Description:**
>
> **Vehicle Rental Website** is an online platform where users can book and rent vehicles for a specific period, with features such as vehicle selection, pick-up and drop-off location selection, and pricing information.

Licenses & Certifications

- Introduction to Research – NPTEL
- Data Science for Engineers – NPTEL
- Social Networks – NPTEL
- Android Application Development
- AWS Cloud Practitioner training

Education

Keshav Memorial Institute of technology

> Bachelor of Technology - BTech, Computer Science and Engineering
> Aug 2019 - Jul 2023

Sanjay Gandhi Memorial Government Polytechnic College

> Diploma, Computer Engineering (CME)
> Jun 2016 - Jun 2019

ZP High School Veliminedu

> SSC (2016)

Skills

Programming languages: C, C++ through OOPS and Java(intermediate).
Database: MYSQL
Web technologies: HTML, CSS and JavaScript.
Platforms: Windows and Linux.
AWS Services

Honors & Awards

Srujana Tech Fest

> Srujana Tech Fest awarded a district-level accreditation for website development.

Declaration

I hereby declare that, to the best of my knowledge and belief, the information providedabove is true and accurate.
